

Des Moines Dikes Are Holding

Dixon's Fourth of July program will be held on the fifth of July.

That important bit of information was lacking in the Evening Telegraph's story yesterday telling of Fourth of July program. The Fourth, as you are perhaps aware, is on Sunday. The official observance is on Monday—the fifth.

Paul Potts, chairman of the Fourth (Fifth) program, is being aided by the following committee members:

Boat races: Bud Herzog and Bud Utley.

Swimming: Larry Canfield, Fred Lawton.

Parade: Fred Hofmann and Sterling W. Schrock.

Fireworks: Francis Henry, Lyle Melvin, James Bales.

Baseball: Dean Harrison and Norm Jollow.

Concessions: Warren Walder.

Band: Lyle Bellows.

Here's to an enjoyable Fourth on the Fifth!

LEE COUNTY may soon become about \$7,000 richer because of heirs who have not claimed estates left them since 1903, County Treasurer Albert Hillson revealed today.

Hillson said he plans to discuss the matter of unclaimed estates with State Attorney James Bales. He said he planned this action after finding that more than \$600,000 had been turned over to the Cook County treasurer's office today from 1,555 unclaimed estates.

"The law may differ in counties having less than 500,000 people," Hillson said, "and this is what I want to find out."

The county treasurer stated that the current practice in Lee County is to hold the money in escrow until the heirs to the estates appear to collect it.

Under the law in Cook County, old estates without heirs or others not having heirs but remaining unclaimed for seven years fall into the hands of the county.

"If this is the case in our county," Hillson stated, "we would hold rightful claim to about 30 estates filed between 1903 and June, 1947. This would put approximately an additional \$7,000 in the county treasury. Heirs to estates filed since that period would still be able to collect their money upon establishing that they were the rightful persons."

Largest unclaimed estate filed since 1947 is that of Henry Stedler, who left \$463 each to eight persons currently believed to be living in Germany. The estate totals \$3,709.46, and names as heirs Karl, Heinrich, Gretchen and Frederick Gohring, and Heinrich, Fritz, Rudl and Elizabeth Reul.

From a will filed in 1949, the unknown heirs of one Kathryn Gaffney are slated to receive \$350.87, and \$264.97 is waiting for a Charles Kelleher or his rightful heirs.

Most unclaimed estates, however, fall into smaller amounts. Typical is that of Ira W. Laugh, whose heirs could claim \$18.75.

DIXON MEN in Auto Accident

Cars driven by two Dixon men were involved in an accident at Galena avenue and Everett street Wednesday. No injuries were reported.

According to Dixon police, the accident occurred when an auto driven by Melburn Schrock, 21, of 1804 Factory st., collided with the rear of a car driven by Don Sholders, 18, of 1010 University st., as both cars were proceeding north on Galena avenue.

THEY'RE VALUABLE

LONDON—A court ruled today that a woman's ability to enjoy a kiss and flash a smile was worth 1,000 pounds (\$2,800). Mrs. Lily Green complained that automobile accident injuries made it hard for her to smile and pressure on her lips was so painful, she could not kiss. A sympathetic court of appeal doubled a lower court's 500-pound (\$1,400) damage award.

AMERICAN FLAG BURNED IN SANTIAGO—Chileans burn a U. S. flag in the Plaza de Armas (central square) of Santiago, Chile after a parade through downtown streets Saturday, June 19. Action came as Chilean students and workers demonstrated to show support for government of President Jacobo Arbenz Guzman of Guatemala. Chileans also burned an effigy of President Eisenhower, paraded in front of U. S. Embassy and the Institute of North American Culture in Santiago, and stoned windows of newspaper El Mercurio which attacked Russia for her Security Council veto on Guatemala issue. (AP Wirephoto).

Pontiac Prison Riot Subdued

One Convict Dead; Guards Use Tear Gas on Prisoners

PONTIAC, Ill.—One convict was killed Wednesday night when 450 prisoners staged a two-hour disturbance that was quelled by prison guards with three barrages of tear gas at Pontiac penitentiary, 80 miles southwest of Chicago.

The victim, Edwin Jenkins, 21, of Chicago, was fatally wounded in the back of the head. Vernon Von Qualen, Livingston County coroner, said a preliminary autopsy report showed Jenkins was killed by a "high speed projectile." Prison officials said guards used only tear gas, however, and there was no explanation immediately of how Jenkins was struck in such a manner.

Damage Slight

Damage was limited to several broken windows and a few minor fires were set off in trash cans. Pontiac is the state's second largest prison.

Warden David Bergan said the demonstration began in the west cell block when the prisoners were being returned to their cells after supper.

"They started rioting as they filed into the cell block," said Bergan. The cell block houses 600 of the 1,500 convicts at the prison.

Bergan said most of the men were in the block when the rioting started but "about 150 refused

Eisenhower-Churchill Talks Face Obstacles

WASHINGTON—Preliminary indications indicate that the Eisenhower-Churchill conference opening here Friday will be held in an atmosphere of sharp disagreement.

British Prime Minister Churchill and Foreign Secretary Eden are due here for weekend meetings with President Eisenhower and Secretary of State Dulles. The ostensible purpose is to close the gap in British-American relations.

Here are some of the steadily developing differences:

1. Indochina—Eden told Commons Wednesday he hoped it would be possible to agree to a Southeast Asian defense system against aggression encompassing a general non-aggression pact in which Communist and free nations would join, plus a straight-out free nation defensive alliance.
2. European Defense Community—The United States has been talking about a revision of its policies, based on creating an international army including French and Ger-

man forces. Because of French inaction, American officials have thought the talks this weekend should consider alternative ways of arming West Germany outside the proposed EDC.

Word is now circulating, however, that the British—never too keen about EDC—have more interest in alternatives than the United States is ready for.

3. Colonialism—Dulles is said to feel this government must be champion of freedom and independence. Specifically, the secretary has been reported as interested in having the British come to some agreement with the Egyptian government over the Suez Canal, long a thorny London-Cairo issue.

NO DEATHS IN FIRE

SEOUL—Police reported tonight there were no deaths in Wednesday night's fire which destroyed nearly 800 shanties and booths and 25 homes near the big American post exchange.

Senate Committee Rejects Flexible Farm Price Plan

Votes 8-7 to Extend Fixed Crop Subsidy

One-Year Extension Has 50-50 Chance Says Sen. Young

WASHINGTON (AP)—The senate agriculture committee today rejected the administration's flexible farm price support program by voting 8-7 to extend rigid supports for another year.

The action came after the group turned down 9-6 a proposed two-year extension of the mandatory supports on the basic crops: wheat, cotton, corn, rice, tobacco and peanuts.

Chairman Aiken (R-Vt.) predicted after the closed door session that the senate would reverse the narrow committee decision in favor of the administration's flexible price support plan.

Young's Motion

Sen. Young (R-ND) offered the motion for one-year extension of the high-level supports due to expire with this year's crops.

Three Republicans and five Democrats supported it. They were Sens. Young, Thye (R-Minn.), Mundt (R-SD), Ellender (D-La.), Humphrey (D-Minn.), Johnston (D-SC), Eastland (D-Miss) and Clements (D-Ky.).

Opposing the extension were Sens. Aiken, Hickenlooper (R-Ia.), Williams (R-Del.), Schoeppel (R-Kan.), Welker (R-Idaho), Holland (D-Fla.) and Anderson (D-N.J.).

Schoeppel said he first voted for the one-year extension with an understanding that other major provisions of a general farm bill, previously approved by the committee, would be sent on to the senate.

"When this was not agreed to I voted against the extension," he said.

Humphrey offered the proposed two-year extension but Young and Thye voted against that along with others who opposed the one-year motion later.

"I think a two-year extension would face a certain presidential veto," Young told reporters.

He said he believes a one-year extension "has a 50-50 chance for senate approval and about the same for escaping a veto."

McCarthy Gets 91 Per Cent In Chicago Tribune Voting

CHICAGO—The Chicago Tribune's poll on the McCarthy-Army hearings ended Wednesday night with 70,038 persons casting ballots and 91.2 per cent voting in favor of the Wisconsin senator.

The poll, by mail and telephone, was held for six days and followed the 36 days of hearings in the McCarthy-Army controversy.

The Tribune reported today that of the mail ballots, 51,824 voted for McCarthy; 4,816 for Pentagon (Army) and 602 were undecided. In voting by telephone, 12,026 were listed for McCarthy; 716 for the Pentagon and 53 were undecided. The total vote was 63,850 for McCarthy; 5,531 for the Pentagon and 655 undecided.

The Tribune said ballots were counted as "undecided" when the voter marked to show that he believed both sides had proved their charges or that neither side had proved its charges.

In general, the Tribune's editorial policy during the hearings

Polio Rate Shows Gain

WASHINGTON—New cases of polio reported over the nation last week totaled 421, a 30 per cent increase over those in the week ended June 12, the public health service said today.

The total was also 5 per cent greater than the 400 listed in the comparable week last year.

Since Jan. 1 there have been 3,644 cases, compared with 3,519 in the similar 1953 period, and since the "disease year" started about April 1 there have been 2,092 cases, compared with 1,938 last year.

REALLY HOOKED—Roman Trzcinski, 12, of Milwaukee, Wis., looks over the plug he used on a birthday fishing trip. A fish slipped off the hook and the plug snapped back. One of the hooks lodged in his eye. Surgeons closed the eye to stop the lid from scraping on the exposed barb before an operation to remove the hook. An attempt to remove the hook with a magnet failed. Tape from a temporary bandage was not removed. Doctors said no new attempt would be made to remove the hook for several months. (AP Wirephoto).

'Banana' War Is Now Propaganda No Indication of Major Battle Anywhere, Report

TEGUCIGALPA, Honduras—The Guatemalan war entered its seventh day today with most of the fighting apparently raging over the propaganda airwaves and in the diplomatic arena. There was no indication of a major battle shaping up anywhere.

The anti-Communist "liberation army" seemingly was bogged down by lack of transport just north of the Honduran border. The army of Red-backed President Jacobo Arbenz Guzman still had not made an appearance in force in the field.

There were these developments:

1. Seven persons were reported wounded, three gravely, when Honduran police fired on a Tegucigalpa crowd watching a pro-Ar-

benz, anti-U.S. demonstration by students in the Honduran capital Wednesday night. Later thousands of the students and townspeople gathered to parade through the city.

2. Honduras charged a Guatemalan airplane bombed a Honduran airport Tuesday. The Tegucigalpa government said it is protesting to the United Nations and to the Organization of American States.

The progress of the rival armies was clouded by a welter of conflicting reports, many of them obvious propaganda claims. One rebel broadcast claimed the insurgent forces led by Col. Carlos Castillo Armas were moving on Guatemala City from three sides. A government broadcast said the rebels had been repulsed and were fleeing toward Honduras.

NEW WRINKLE

Kobe, Japan—Police have uncovered a new wrinkle in the smuggling racket. Along with a batch of 1,700 Swiss watches confiscated on a Japanese freighter from Hong Kong, they seized 20 boxes of medicine used to rid humans of worms.

Third Band Concert in John Dixon

Dixon's Municipal band will present its third concert of the season Friday at 8 p.m. in John Dixon park. The band will be under the direction of Robert L'Heureux.

Included on the program will be the "S.I.B.A. March" by R. B. Hall; the "Princess of India Overture," by K. L. King; Sergei Rachmaninoff's "Prelude in G Minor"; "Lady of Spain," by Tolchard Evans; a poetic march, "The Vanished Army," by K. J. Alford; "Legend of the Rockies," a symphonic poem, by Clair W. Johnson; "A Waltz Medley," arranged by Paul Yoder; the "Gavotte From Mignon," by Thomas, and Henry Fillmore's novelty, "Sally Trombone."

Other presentations will include Eric Coats' "Sleepy Lagoon"; a vocal solo by Gene Lebre, "I Can't Give You Anything But Love," by Fields and McHugh, and the "Trouping Days March," by K. L. King. The concert will close with the playing of the National Anthem.

Munich in Indo Seen by Knowland

French Prepare to Give Reds Far Eastern Victory

WASHINGTON (AP)—Sen. Knowland (R-Calif.) said today French Premier Mendes-France and Premier Chou En-lai of Communist China "are prepared to negotiate a Far Eastern Munich."

China at the very least will demand "all of the Tonkin delta" in Viet Nam, Knowland said, adding: "This . . . is going to be a tremendous victory for communism in Asia."

The psychological and military advantage from any such settlement will make it almost certain that the balance of Viet Nam will fall like a ripe plum."

Sees "Promises"

Knowland said the Western allies might get "lip service" promises from the Communists that Laos and Cambodia, the two other associated states of Indochina, will remain independent. But any "settlement," he said, will leave these two nations "disarmed and helpless."

Knowland addressed the Machinery and Allied Products Institute. He emphasized he was not acting as a "spokesman of the government."

Although Knowland is senate Republican leader, he has frequently not seen eye-to-eye with the administration on Far Eastern matters.

Can't Delay Decision

Knowland said, "We cannot forever delay making a basic decision to maintain a free world and free men."

Lee County Over Top in Cancer Drive

A total of \$7,012.22 was contributed to the Lee County 1954 Cancer Crusade conducted during April and May.

According to James O. Hey, campaign chairman, this amount exceeded the quota of \$5,000 set for Lee county. Hey received congratulations from Wallace W. Tudor, state campaign chairman, upon passing the 1954 goal.

The Illinois division expects to reach its \$1,200,000 mark by August 1. On May 10, 88 downstate counties had raised \$309,711 of this amount. The national goal is \$20,000,000.

Twenty of the 22 townships in Lee county took part in the campaign. In Dixon, the 14 voting precincts served as separate units in the residential solicitation. Business and industry responded to letter appeals. Many organizations contributed generously to the fund.

U. S. to Crack Down on Phoney GI Allotments

WASHINGTON—The chairman of the House Armed Services Committee, Rep. Short (R-Mo.), said today that American taxpayers have been swindled out of millions of dollars by servicemen fraudulently claiming benefits for their parents.

Disclosing what he said were early findings in a broad Army investigation, Short told offenders to "take cover because the full force of justice is coming their way."

Paid to Parents

The benefits under scrutiny, known as secondary allotments, are paid to parents of armed services enlisted personnel upon affidavit by servicemen and parent that the serviceman pays more than one-half of the parent's support. Part of the money comes from the serviceman's paycheck and part from the Treasury. The government's share ranges from \$51.30 to \$96.90 a month.

Initial findings, Short said, in-

dicated that about 30 per cent of secondary allotments involving Army personnel were improper or fraudulent.

Cite Savings

Short said savings would amount to at least 20 million dollars as a result of the Army's investigations, with other services. The savings represent money that would have been paid out if the investigations had not been made, he said.

Federal prosecutions and court-martials are pending in many cases, Short said, with the Army already having obtained 30 convictions through court-martial.

River Crest Reached at Iowa Capital

Stream 18 Feet Above Normal; Danger Recedes

DES MOINES—(AP)—The Des Moines River crested today at historic high of 30.19 feet. This was 18 feet above its normal flow. All major impounded areas were safe, however, and flood defense officials said "We think we've got it whipped."

A three day battle, first to raise the levees and then to hold them against the pounding waters, was in its climactic hours. All major dikes were holding. No lives had been lost.

The crest was 3½ feet higher than the official peak reached in the disastrous 1947 Des Moines flood when a major levee gave way and flooded a residential area.

Minor Breaks

The psychological and military advantage from any such settlement will make it almost certain that the balance of Viet Nam will fall like a ripe plum."

Minor breaks in the miles of levee system, sand boils, and undermining occurred from time to time today. Flood officials said the situation would remain serious for some 24 hours.

The crest was of several hours duration and fluctuating fractionally around 30.1 feet. No important drop in the stream was due in Des Moines until Friday. A third consecutive day of fair weather aided the situation.

Downstream from Des Moines the city of Ottumwa prepared for a crest of 18½ to 17 feet due their over the weekend. Ottumwa was ravaged by a 20.2 crest in 1917 but this year lack of rain in the valley below Des Moines has created an easier situation. Officials said they were ready for water up to 18 feet.

Upstream from Des Moines the river had fallen about three feet from its crest near Boone and U.S. Highway 30 there was no opening to one-way traffic. U.S. Highway 6 at Des Moines still required rerouting due to a flooded bridge.

Some 7,500 persons had left their homes, as a precaution in case the softened levees gave way.

Water trickled across the River view Park levee after workers had abandoned efforts to save it because backwater from already inundated Birdland Park had flooded the area it was designed to protect.

Meanwhile, President Eisenhower named 19 Iowa counties disaster areas, thus qualifying them for federal aid. In a wire to Gov. William S. Beardsley the President expressed his "utmost sympathy" for Iowa flood victims.

The counties designated disaster areas were Sioux, Plymouth, Cheyenne, Woodbury, Minnoka, Harrison, Ida, Clay, Calhoun, Kosciusko, Humboldt, Webster, Boone, Hamilton, Hancock, Cerro Gordo, Franklin, Hardin and Polk.

Heat Wave Returns to Middlewest

By The Associated Press

More sweltering weather appeared in prospect for wide areas of the country today after record breaking temperatures in many western areas Wednesday.

Fairly pleasant weather prevailed in most of the Northeast, along the Pacific coast and in some Midwest areas. But it was hot and humid over the South and hot and dry over most of the Rockies, the western half of the Plains and the Great Basin area.

Temperatures climbed to above 100 degrees as far north as South Dakota and Wyoming Wednesday. New record high readings for June were set in many cities in Wyoming, Colorado and Utah. The 101 at Pueblo, Colo., and 104 at Milford, Utah, were new record highs. Denver's top was 102.

Former Camp Grant Chaplain Passes Away

GARY, Ind. (AP)—The Rev. George Sheets died Wednesday in Methodist hospital. He had held pastorate in Kankakee, Rock Island, Rockford and Ottawa before retirement.

Dr. Sheets was a Baptist minister for more than 50 years and graduated from Colgate-Rochester ministry of the University of Rochester, N. Y. He was 84.

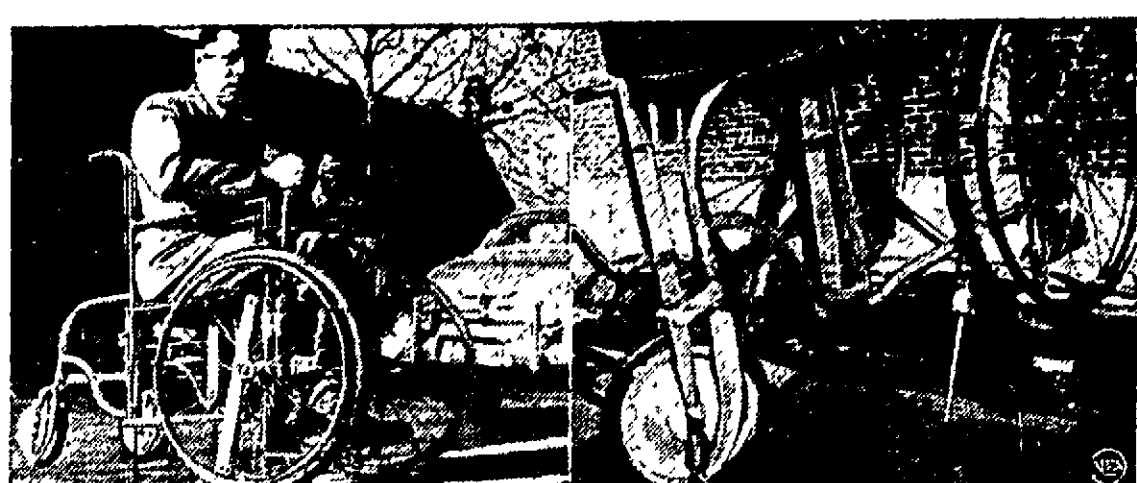

Chaplain at Camp Grant, Rock-

ford, during World War I. Dr. Sheets was president of the Illinois Baptist Conference for four years.

Wholesale Calves

FREMONT, Mo. (AP)—Bossie, a Guernsey cow belonging to Mrs. Alice Hoagland of Fremont, dropped three sets of triplet calves in a row, and all within less than 26 months. All the five bulls and four heifers were normal at birth and only two died.

Medical Treatment of POWs Called Fantastic

North Korean Medics Had Wierd Remedies, Claim

By RENNIE TAYLOR
AP Science Reporter

SAN FRANCISCO (AP)—The North Koreans had some fantastic medical treatments for their prisoners of war, a U. S. Army doctor reported today.

Prisoners complaining of vitamin deficiencies were given bile from the gall bladders of butchered pigs. Maj. Alexander M. Boyesen, of the Brooke Army Medical Center, Ft. Sam Houston, Tex., told the American Medical Assn.

This treatment did a good job of keeping men away from sick call.

Used Needles

For the treatment of a series of Chinese doctor used a pair of short needles attached to spring vibrators. The needles were put into the skin around the painful area and made to vibrate.

"As you might suspect," Maj. Boyesen said, "some cases of back pain and headache were cured by this treatment."

Another Chinese doctor decided all complaints of eye trouble were caused by glaucoma, a condition in which the fluid pressure in the eyeball increases. The Chinese medic treated all eye patients with salt water injections under the eyelid, the medical officer reported.

Maj. Boyesen who is from Bemidji, Minn., spoke of the experiences of himself and four other medical officers who had been captured.

Ate Weeds

In the spring of 1953 food became so scarce that prisoners ate boiled weeds, Boyesen reported.

Frequently the only medicines available were cough tablets for pneumonia and charcoal tablets for dysentery. Incisions for drainage of abscesses were made without anesthesia and sometimes with improvised instruments, such as the metal arch support from a combat boot.

Virtually all deaths in the Communist war prison camps were caused directly or indirectly by starvation, exposure and harassment, Boyesen said.

The average Chinese doctor

would treat only the chief complaint of a prisoner, said the officer.

Had Choice

A patient suffering from both night blindness and diarrhea had to choose one of the two for treatment.

In another report Dr. Louis H. Bauer of New York said a plan should be worked out so that all physicians would serve in the armed forces for a definite period shortly after graduation.

Dr. Bauer said the AMA reluctantly supported the present doctor draft law and that it is becoming unpopular.

Dr. Bauer said some doctors who had been notified had arranged their affairs and then had been kept waiting for months before being actually called.

He said there were rumors also that doctors were being discharged from the services a month or two before their minimum terms are completed, thereby making them subject to a second call.

Former E. Moline Fire Chief Dies

MOLINE, Ill. (AP)—Paul Godesabo, East Moline fire chief for 28 years before his retirement Dec. 31, 1952, died in Moline Public hospital Wednesday night. He was 61.

Godesabo, former president of the Illinois Firemen's Assn., had been city electrical and building inspector.

Sun-Baked Eggs Hatch in Dump

STANDISH, Maine (AP)—A batch of eggs discarded at the town dump hatched out 41 chicks after baking in hot sunshine, caretaker Bert Chaplin reported.

Chaplin said Wednesday night the chicks appear to be flourishing.

Meek Praises McCarthy, Ike And Sen. Taft

SALEM, Ill. (AP)—The objectives of Sen. McCarthy's (R-Wis) committee, the late Robert Taft and the Christian principles of the Eisenhower administration each received praise Wednesday from Joseph Meek, Republican candidate for senator from Illinois.

Meek speaking at the 71st sailors and soldiers reunion here, also called on this nation's leaders to believe in America first as British Prime Minister Winston Churchill "believes in Britain first."

"America should stand free and not make alliances with a country which has imperialism as its chief interest," he said.

He said failure to send Republicans to Congress in November would tie the President's hands and "kill the Eisenhower crusade."

Guatemala: Large Issue, Small War

By FRED SPARKS

GUATEMALA CITY—(NEA)—This is a large issue, a small war.

The issue is whether a pro-Communist government can successfully maintain power in Central America and influence other Latin American countries.

Less armed men are involved than there are in the Chiapas police department.

Government supporters blame U. S. alone for the rebellion. Official told me: "Who else is to finance such an operation? Government citizens, look over their shoulders, say that out foreign Communist help government would have already."

The government prepared to make a last ditch stand in the capital and, as in all Central American countries, the capital is not only the government seat; it is the heart of the whole country, commercial as well as political.

As the army spread out, watching possible avenues of invasion, the defense of the capital was aided by pro-government union and collectivized farm groups. The mystery was just what they could do and that brought up the greater mystery of what had become of the \$10,000,000 in weapons imported from behind the Iron Curtain. I have covered many wars and revolutions and have never known a more nervous one. The 1200 Americans in Guatemala City are, as are many government people,

behind the lines. Every time a car backfires or an Indian sets off a firecracker to some misty pagan spirit, they jump.

The government might try to protect us, but if the mob starts to run swinging machetes and firing carbines, what then?

The revolution is interfering with everyone's dinner. You get started on a steak when someone pulls a master switch—blackout. There are no protective curtains prepared, and you sit for one hour in the restaurant, dark as the inside of a drawer.

Then the lights go on. You nibble a cold mouthful when again—blackout. There are even a few air raids, but compared to World

War II, when hundreds of planes were involved, it is like a movie set.

There has been little damage in the capital. There is not a single air raid shelter, not a single siren for warning.

Being caught on the street in a blackout is an experience that recalls childhood nightmares.

As soon as the lights go out, you back into the nearest doorway. Trigger-happy militia men let fly at every shadow. A sparrow on the wing against the moon is target for a thousand shots. The militia men, many of whom wear black hats but no shoes, fire through any window showing even a lighted cigarette.

Most Americans stick close to the hotels. Many tourists were trapped by the cancellation of plane service. They sit in the lobbies all day, swapping rumors, checking life insurance policies. There is little to do. Business houses are closed, gasoline rationed. It is hard to buy even a pencil. Nobody can yet guess how much

support the government has in the capital. That will be answered when and if Der Tag arrives, in a swirl of house searches, sabotage and counter attack.

The correspondent trying to map the course of conflict is like a man trying to piece together a jigsaw puzzle in a barrel of tar.

The government assumes American correspondents to be about as friendly as the water snakes in the neighboring jungle. They give us little news and deny us permission to go to the front.

The Palace, government general headquarters and home of the President, is still open for visitors, but the roof bristles with anti-aircraft guns.

In front an occasional jeep whizzes by with steel-helmeted soldiers, but under the pleasant trees idle citizens have shoes shined, buy and sell lottery tickets.

SAN FRANCISCO (U)—Artist Mel Warrenback became the father of twin girls and mailed announcements saying, "Sugar, and" Spice and Everything Twice!

Down to Size

HENDERSON, N. C. (U)—Horace Johnson, 9, had to give away his collie dog, Mike. Neighbors complained that Mike was tearing up gardens and breaking milk bottles.

Horace appealed for a house dog in a letter to the News and Observer in Raleigh. A reader solved the problem with the gift of a Mexican Chihuahua.

The Dixon Evening Telegraph, which has the distinction of serving a large area in northern Illinois, can well boast of the pulling power of the advertisements carried by Dixon merchants every day in the week. Dixon merchants are more than advertising minded. Their efforts in this line have lured many from considerable distance. Our stores carry up-to-date merchandise, our fine grocery stores, of which there are many, are of the very best. Our merchants have proved themselves trustworthy and reliable and The Dixon Evening Telegraph, after 102 years, feels pride and satisfaction that its subscription list has continued to yearly grow way back from 1850.

Here's the Background for the Guatemalan Revolt

Guatemalan officials and the anti-Communist invaders have been fighting their war with their mouths, both sides making claims, neither acknowledging losses, and censorship blacking out the facts.

It has to be assumed those who engineered the attack did some planning, both as to timing and the size of the force necessary to win. The next few days will show whether the planning was shrewd or stupid.

So far the invaders have been disappointed if they were depending upon wholesale desertions to their side from the Guatemalan army. And there is no indication the peasants flocked to join them either.

If this invasion fails, the Communists not only will strengthen their grip on Guatemala but the United States will suffer a severe setback in its desire to sell all Latin America free of Communism.

The war itself, but not its significance, is on a peanut scale. The invaders are reported to have perhaps 5,000 men—they may have more—backed by planes. Guatemala has an army of 6,000, backed by police.

The defending force may turn out to be larger than that if the 2,000 tons of arms, recently imported by Guatemala from Czechoslovakia, have been used to arm the peasants, and they fight for the government.

There's a lesson for the United States in the outcome if the troops remain loyal to the present government, the peasants rally behind their Communist union leaders and the invasion is repulsed.

For 14 years Guatemala had been under the dictatorship of Gen. Jorge Ubico, who had the support of the country's big landowners while the majority of the country's three million people lived in poverty.

In 1944, students and army officers, bent on social reform, overthrew Ubico. Two of the revolutionary leaders were Juan Arenal and Jacobo Arbenz. Arenal became president.

He accepted the help of Guatemala's Communists. His regime did put in social reforms, such as social security. Four years ago Arbenz was elected president. He had a land-reform program to break up the big estates and distribute them among the peasants.

While the Communists were helping Arenal and Arbenz, they were also strengthening their grip on the country. For instance, they got control of the labor unions. They didn't try to take over altogether. That could wait.

The land reforms appealed to the peasants, but were backed by the big landowners and the United Fruit Co., which had large holdings in Guatemala.

But opposition to Arbenz, who had the Communists sitting at his elbow, developed among the rich conservative Guatemalans and army officers who feared their country would wind up in time completely under the Communists.

Many of them went into exile, including Col. Carlos Castillo Armas, who is now leading the "liberation army" operating from a base in neighboring Honduras.

The United States has a big, obvious stake in not wanting a Communist government in Guatemala. It would do more than just give the Russians a foothold on the American continent.

It would serve as a starting point to try to Communize the rest of Latin America. And, in case of war with Russia, the Communists would have airfields in Guatemala, 800 miles from the Panama Canal.

The problem which the United States has faced in Guatemala in wanting to win the allegiance of its people is the same it faces in most Latin-American countries and among impoverished people everywhere.

Where there are poverty and hunger, the Communists have willing ears for their propaganda and their promises to give the poor a better share in society in the form of land, more food, and better health and living conditions. Among people with nothing, promises are better than nothing, no matter how phony those promises turn out to be.

Unless the United States can offer a program, or induces the regimes it supports to offer a program, in which the poor can see benefit for themselves, it faces the prospects of the Communists making progress in all the impoverished areas of the world.

Social Security

QUESTIONS AND ANSWERS

QUESTION: Can a man go back to work after he has gotten social security retirement payments? My husband was laid off last year when he was 65. His foreman told him he could get social security payments but he won't do anything about it. He says he's sure he'll get another job. If he starts taking social security payments now and then gets another job can he stop the payments and then start taking them again later?

ANSWER: A person who has earned entitlement to social security payments may draw payments when he is not working or retired after age 65. Not working or retired means having earned income of \$75 per month or less before any deductions. When a person who is drawing social security checks has earnings in excess of the permitted amount he reports to the social security and his checks are stopped during the months of excess earnings. When earnings again drop to \$75 per month or less a notification to social security will again start payments. This process can be repeated as often as the retired person finds a job. Payments are stopped only for the period of employment. They can always be started when retirement again exists.

QUESTION: Is it possible to get back the social security taxes I've paid? I'm going to be 65 years old in about six months. I had hoped to get social security retirement payments when I was 65 but I haven't worked quite 10 years. I worked about six years and paid social security taxes. Then I got sick and haven't been able to work since.

ANSWER: Not all people need 10 years or 10 quarters of coverage. People attaining age 65 after Jan. 1, 1971, will need 10 years or 40 quarters of coverage but if you attain age 65 before Jan. 1, 1971, you can be eligible for payments with less than 40 quarters of coverage. You should check with the social security office when you attain age 65 and retire because you may be eligible for benefits. Taxes paid into the social security are not refundable.

'Don't Want To Be a Widow'- Carry Your Part of Load

For wives who don't want to be widows: These few words from an "old-fashioned" wife may interest you. She writes: "I have noticed during the past ten years or so how little consideration many young wives show their husbands."

"Goodness knows, the men folks have a tough job nowadays to earn enough to support their families and supply them with some luxuries."

"I am a 52-year-old grandmother. When I married, my wise mother advised me not to burden my husband with household chores or problems connected with my job as homemaker."

"I followed her advice and, though I had three children, never once did my husband have to help with housework or worry about my problems."

"Today, at 53 years of age, he is in perfect health and looks no more than 53. I also enjoy good health, so I don't think that my shouldering my part of the load hurt me at all."

PLAN YOUR WORK SCHEDULE "It is my firm belief that today's young and middle-aged wives could do a lot to lighten the load their husbands carry if they, the wives, would get up when their husbands do, start them out with a good breakfast and in a cheerful frame of mind. Then light into the housework instead of visiting on the

telephone or drinking coffee with the neighbors until half the morning is wasted away."

"The wife who puts her time away lets a husband come home to a rushed and out-of-sorts wife who must call on him for help in order to get the dinner on the table, the dishes washed and the children to bed."

"But the wife who has organized her day well can easily handle everything that needs to be done after her husband gets home from work."

There it is, wives. Any wife who doesn't want to be a widow would be smart to check up and see if she is carrying her part of the load.

Voice of the People

Dixon, Illinois June 20, 1954

Here's a timely subject which should be brought to the attention of our readers and some action taken to stop such an annoying nuisance. As is well known its against the law to drive our cars on our streets with the muffler open, creating such a disturbance, but what about the number of motor boats on our river, running, howling, roaring up and down the river, past our hospitals and rest homes, with the "cut-outs" wide open, disturbing the patients therein who are suffering all kinds of suffering and pain, unable to get rest, quiet and relief, for which they are paying real money.

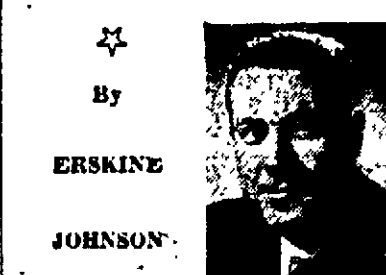

Just put yourself in their place for a few weeks, months, yes and even years as many of them must do, and imagine how much joy and pleasure you would know from such a monotony, and if you wouldn't wonder if there shouldn't be some law concerning motor boats the same as automobiles.

We do have humane societies for the care and protection for dumb animals, why can't and don't they have such protection for our human beings? Let's really do the right thing and put a stop to such unnecessary suffering.

There's plenty of room farther away from town to enjoy (?) your boat without disturbing those who can't help themselves. Please be kind.

In Hollywood

HOLLYWOOD—(NEA)—Hollywood on TV: It's Art Linkletter who says "People Are Funny" but after three years of filming weekly Foreign Intrigue telefilms in Europe, Sheldon Reynolds is author for the statement, "People are actors."

Dramatic coaches and the Screen Actors Guild may blush, but Reynolds tipped me that 50 per cent of the featured players and 99 per cent of the bit players in his hit TV films had never acted, or dreamed of acting, before he turned the camera on them.

"I go for interesting faces," Reynolds says, "and I don't care where I find them. I've hired Swedish hotel maids and French ditch diggers as actors. If they don't speak English, we dub in their voices."

Even Jerome Thor and James Daley were camera unknowns before starring in the adventure series. Thor was a Broadway stage actor, Daley an obscure radio emcee.

Reynolds, ex-New York radio and TV writer-director, on overseas movie-making for TV: "It isn't cheaper but it gives the show a label. I don't have to say to my prop man, 'Get me a European-looking ash tray.' I have the European-looking ash tray."

THIS ELECTRONIC age note: Wally Cox and Pat Benoit, just married on the Mr. Peepers show, will have a baby in the fall scripts. Dramatic license, they say.

Ed Murrow's last Person to Person show of the season, July 2, will start the fireworks early. Dean Martin and Jerry Lewis will howl it up from Hollywood. . . . Another live comedy show from Movietown, "The Mighty O," hits the CBS-TV tubes in September. It's a laughter-getter about two battling officers on a coast guard cutter.

Hollywood's new word for telepictures shot in color—tint. . . . Marjorie Main's up for the lead in "Tugboat Annie," which Edward Small will produce for TV. . . . Press agents are now calling Libera "the dimpled darling of the candelabra set." Ugh. . . . Cameras are rolling on Broderick Crawford's series, "The United States Secret Service."

TELEVISION network bosses aren't even blushing over Eddie Cantor's charge in Variety that "TV networks lack creative thinking." "Four grapes," they say. Checking out of a fat NBC contract to film his own shows, for syndication, Cantor says the networks have flopped in the good programming department and argue:

"They ask themselves 'what's been a success?' and then do something like it. 'The let's do something like it' attitude is the big trouble with TV today."

Ozzie and Harriet Nelson, who launched the family comedy show on radio 10 years ago and then switched to home screens, are awarding yesterday's dishwasher to people who sneer at the big crop of TV family shows. Says Harriet: "There's great self-identification in them for people and the good shows survive. It's as simple as that."

EDGAR BERGEN, who's shelved his film biography of Charles McCarthy, "From Little Acorns," is unhappy about the live TV contract he signed now that telefilms are clicking.

It may or may not have anything to do with the flops of other TV comedy stars snatched for movies, but Hollywood's letting Paul Gilbert, the home screen clown, be himself.

Paul makes his screen bow with Tony Curtis in "So This Is Paris" and there wasn't a single expert on the sidelines to meddle with his comedy technique during production.

"I was pretty strong on the subject of wanting to stay as I am," he told me. "They let me work the way I've always worked. Nobody tried to remold me because I told 'em it wouldn't work."

Westbrook Pegler

(Copyright, 1953, King Features Syndicate, Inc.)

NEW YORK—I am not, much of a hand to be listed among those present at public goings-on, but when Theodore Moran, as chairman of the proceedings invited me to come around for the dedication of a new flagpole at Duffy Square, which is a little triangle of concrete and subway gratings at the confluence of Broadway and Seventh avenue, I said to myself, Pegler, that's for you. I knew Father Duffy, the chaplain of the 69th New York Regiment of Foot, a proud and sentimental Irish outfit when they landed in their training area in France, as part of the Rainbow, under a General Mann of whom I remember only that he was overweight. His chief of staff was a very snappy colonel who imitated General Pershing's exceedingly correct posture and dress.

Under Pershing, an officer could not smoke a pipe in public and he had to keep his buttons buttoned and wear his cap square on his head, with a grommet in it. This chief of staff who was such a snappy job of work later turned out to be one of the sloppiest soldiers on earth, but that was his prerogative because by then he was wearing all the stars he ever pinned on any general in order to simulate the rank of field marshal, which we ain't got. He affected smoked glasses and a cornob pipe, discarded his tie, which on the other side of the world George Patton was insisting on even in battle, and went around everywhere with his collar unbuttoned and his cap awry. By Pershing's standards, he looked like a bum out of a culvert, but when you get as much rank as Douglas MacArthur had by then you can go around in a kitch-dancer's girdle if that is your whim.

The Garbos seemed reasonable because there was some bad sun glare out in the Pacific, but I don't recall pictures showing any other Pacific generals wearing them so maybe this was another little vanity. Generals have always gone in for rooster plumes, golden ropes, grudy stripes on their pants and brass gobbons on their heads as the old prints and latter-day scenes of diplomatic splendor clearly show. Now some of them try to look like the grease-monkey who sells you 10 gallons of gas.

Father Duffy of the 69th had been pretty well known among the New York Irish before the regiment went to France, but once there he subtly projected his good influence outside his own regiment and with it his fair renown. Not that he was in the slightest degree pushful or "ambitious." It is just that he was a good man whose goodness radiated.

They had four medal of honor men among the guests of the Father Duffy post of the Catholic War Veterans, by name Jimmy Walsh, a bluejacket in the landing party from the old Florida at Vera Cruz; Dick O'Neill, who got his on the Ourcq in the first big war; Tommy Kelly, who got his in Germany in the second one, and Johnny Meagher, who got his in Korea. Mike Donaldson, a sergeant of the 69th and an old-time prizefighter who hung them from the rafters at St. Nicholas rink and the Polo A.C. around 1913, also got the capital prize, thanks to some intervention by Damon Runyon, some time after the first war. But I didn't hear him around so I conclude that he missed the do. I so conclude because if you don't hear Mike you know Mike is not within a mile of where you are.

Well, it was a very nice do, and I had some mixed reflections, because these all were men and women who either live or work or both in a part of New York which has been going to pot for years. They had come from mass at the Church of the Holy Cross on West Forty-Second street, which used to be a theatrical rattle in the decent meaning of the term but is now a stretch of sordidness answering to the appropriate professional term of lounge-opera. This seems to come from the flea circus. They do not call such art fests in the profession. They call them louses.

There is not a single live show on Broadway today but only movies, and many of them questionable, and shooting galleries and arcades. You see terrible people doing terrible things and yet decent families raise nice, polite, conscientious children in the midst of this squalor as I used to notice around Madison Square Garden by watching little girls' mind their baby brothers and sisters and listening to the talk of girls and boys, both. They might look like Dead End kids, but religion and decency are still life there in spite of hell.

I remember one such, a pale little girl named Margie Regan was was secretary to Jimmy Johnston, when he was matchmaker at the Garden in the Era of Wonderful Nonsense. Jimmy was a cocky, little harp from Liverpool who had a large family of his own and fought tooth and nail for them in a tough cynical racket, leaving affections of fastidious ethics to the toffs constituting Tex Rickard's 500 millionaires, many of whom died broke or ultimately will. Johnston advertised for an office-girl and there was a stampede. Presently one little girl began shoving through the jam exclaiming "Excuse me, excuse me, I want to see my daddy," and horned right into Johnston's office.

Jimmy admired her ingenuity and nerve, a good deal like his own, and asked what her experience was. Margie said, "I was Father Duffy's secretary for two years." Jimmy started to phone Father Duffy and Margie began to cry. She said she actually had only addressed some envelopes for Father Duffy. But she just had to have that job.

Margie worked on and on for years at the Garden, a sweet, merry kid, but sickly. Finally she disappeared and after a long time I read that she had died at Saranac.

What's Right?

Never ask another person to guess your age—no matter how young you think you look for your age. It's always embarrassing to be asked to guess another person's age. And it doesn't prove anything, anyway.

For no one who is kind or tactful is going to try to guess correctly.

Living, Business Habits Of America Are Changing

New Roads, Apartments, Parking Lots Spring Up

By SAM DAWSON

NEW YORK (U)—The look of America is changing. And with it are coming new business ways, new living habits.

Today New York state is opening the first stretch of its big new thruway. Like those in other states, the expressway already is drawing new shopping centers to its sides, luring new factories to nearby sites.

Cities are changing, too, as well as the countryside. And the slow-down in other forms of business activity isn't putting any damper on this trend—neither in the shifting of population from region to region, from cities to suburbs, nor in the new ways of working and living that the big change is bringing about.

Rip Out Streets

Cities are ripping out old streets, putting in new expressways. Some of the cow-path streets of Boston, for example, are being replaced with a speedway to carry downtown workers to outlying residential areas.

Seattle is building an elevated highway along its waterfront. Pittsburgh is boring a new expressway into its downtown area, and planning to move a railroad station and rail line out of its way, and tunnel through a mountain. Brooklyn this week opened a three-level expressway to bypass traffic around the business district.

The parking problem finds a number of cities building municipal garages—some under their parks, others rising several stories into the air in sideless structures.

Centralization and decentralization are going on hand in hand—new ways of saving space, new ways of spreading out. There's a spurt of erecting new-style office buildings with the accent on glass.

Now Luxury Offices

New York's Park Avenue is now seeing a number of luxury apartment houses giving way to luxury offices, because the rent return is higher on work space. It means more concentration of workers in midtown. At the same time many New York townhouses are giving way to luxury apartments, meaning more persons living on the same ground space. Cooperative apartments are spreading—people now owning a cubicle of space the way they once did houses.

A number of cities are planning on opening industrial sites along their outskirts, attracting new factories without also adding to the downtown clutter.

Others are clearing out blighted downtown areas—Chicago and Pittsburgh are two examples.

Offices on Stilts

Still others, like New York and Chicago, are building or planning office buildings on stilts above their downtown railroad yards.

And many cities are seeing the flight of stores and even corporate office headquarters to their suburbs, as the whole look of America changes.

Tax Trial of Elgin Auto Dealer Is Set

CHICAGO—(U)—An Elgin car dealer will go on trial Sept. 24 on charges that he evaded \$81,969 in income taxes on under-the-table car sales during the auto shortage following World War II.

Federal Judge Win G. Koch overruled a defense motion contending the indictment of Sam Achilli was unconstitutional. The 39-year-old Achilli was also ruled physically able to stand trial.

The government charges that Achilli evaded taxes in 1947 and 1948 and owes more than \$110,000 including interest and penalties.

Planes Pancake

SHAWNEE, Okla. (U)—Two light planes landed simultaneously—one on top of the other—at the Shawnee Municipal Airport Wednesday night.

The pilot escaped with cuts and bruises. The planes were damaged heavily.

"If you ever had the world drop in on you, you know how I felt," said H. E. Redding, pilot of the plane on bottom.

42-Year-Old Kidnap Solved By Phone Call

SPRINGFIELD, Mass. (U)—A kidnap mystery dating back 42 years apparently was solved today by a telephone call from the victim now living in West Virginia.

Robert Thompson was only three years old when his father took him from the home of his mother here in 1912, a short time after his parents were divorced and custody of their son given to the mother.

He was the object of a nationwide search at the time, but no trace of the child or his father ever was found.

Springfield police received a telephone call Wednesday night from a man who identified himself as Robert Wilson Pitman, 45, of Japonica Island, Woodrum Park, Charleston, W. Va.

"Pitman" told police that his father, whom he had known as "Wilson Ambrose Pitman" died recently, and that he learned of his true name and past history from newspaper clippings and other papers he found in his father's effects.

He asked police if his mother, Mrs. Rose Ethel Mason Thompson still was living.

Police located an aunt, Mrs. Ruth Rawson, who said that the kidnaped boy's mother, now Mrs. Rose Tracy, of Jericho Center, Va., is in a hospital at Burlington, Vt., following an eye operation.

Police said the West Virginia man said he will go to Burlington to see the mother he never knew.

He is married and the father of two children, police said.

Certain Asiatic tribes devoted to falconry use the golden eagle to catch antelopes, according to the Encyclopedia Britannica.

ALL-AMERICAS WOMAN—Mrs. Felisa Rincon de Gautier, mayor and city manager of San Juan, Puerto Rico, was named "Woman of the Americas" by the United Women of the Americas at Hunter College, New York City. First woman mayor of her city, Mrs. Rincon de Gautier first took office in 1946, and since then has become one of the commonwealth's most powerful political personalities. Flanking Mrs. Rincon de Gautier, above, are Mrs. Luis de Hempel, left, and Mrs. Laura M. de Vidal, president, United Women of the Americas, who made presentation.

Peru Will Get A New Bridge

PERU, Ill. (U)—A new bridge seems to be in store for Peru.

City officials Wednesday informed the state that Peru is ready to accept a federally approved approach to a proposed new bridge over the Illinois River.

Peru, a city of 9,000, has been without a bridge for several years since an old wood type bridge became obsolete.

The bridge would be constructed with federal-state funds. The federal government has twice rejected a city proposal for an approach to the bridge site which would lead through the business section.

At a meeting Wednesday, Mayor Frank Keneshy told R. R. Bartelsmeyer, chief engineer for the state division of highways, the city would agree in order to get the money.

College Illness

EAST LANSING, Mich. (U)—Hoe-the-gardelitis and baseball fever are suspected contributors to the 65,000 hours of sick leave taken last year by Michigan State college employees. It cost the school \$100,000. Now the college has hired a graduate nurse to check on sick leaves.

Rosencrans-Mizel Wedding in Pawpaw

COMPTON — Mrs. Forest D. Rosenkrans, nee Hazel Montavon, was married to William F. Mizel at 4 p.m. June 19, in the Pawpaw Methodist church. The double ring ceremony was performed by Rev. Webster R. Hobb in the presence of members of the immediate families.

Escorted by her brother, Wyman H. Montavon of Denver, Colo., the bride was attended by her sister, Mrs. H. Barrett Rogers of Evanston, Ill. The bridegroom was attended by Prof. H. Barrett Rogers of Northwestern university. The ushers were Donald D. Rosenkrans of Normal, Ill., and W. Kent Montavon of West Lafayette, Ind., son and nephew respectively of the bride. Miss Dea Eakle of Waterman was organist and Mrs. Wesley Hanson of Stewart was soloist.

Following the ceremony, a reception was held in the church parlors, after which the couple left for an automobile trip through several Eastern states. Mr. and Mrs. Mizel will be at home in Waterman after July 1.

For the past several years Mrs. Mizel has been the fourth grade teacher at Pawpaw. Mizel, also formerly a school teacher, is office

manager of the Hays dairy in Waterman.

Patsy Johnson Honoree at Bridal Shower

OHIO—Mrs. Robert Anderson, Mrs. Jerry Norden, Mrs. Preston Burger, Misses Winifred Spooner, Helen Brown, Patricia Walter and Patsy Johnson were dinner guests of Mrs. R. D. Kramer at Maxon Manor at Oregon, Friday, in honor of Patsy, who will be married soon to Felix Johnson of Ohio. After dinner the guests went to the home of Mrs. Kramer at Polo for a social evening and late refreshments.

Miss Patsy Johnson was also guest of honor at a personal shower at the home of Mrs. Robert Anderson, Saturday evening. Miss Winifred Spooner was assistant hostess. Patsy received many lovely gifts from the 18 guests present and also was presented a bridal book made by the ladies that evening. Decorations were in green and white. Refreshments were served.

Newlyweds To Be Honored at Reception

Mr. and Mrs. C. C. Clausen, 1111 Douglas Terrace, are giving a reception in honor of Mr. and Mrs. Richard Clausen, who were married recently, from 2 to 5 p.m., on Sunday at the Presbyterian church. It is hoped that all friends of the family will be able to join them on this occasion.

GREEN RIVER ORDINANCE

There will be a meeting of the officers and committees of former employees of the Green River Ordinance, Sunday, at the home of Mrs. Grace L. Frey, 219 Lincoln av., at which time plans for the annual reunion and picnic will be made.

Nelson 4-H Club Receives Letter From Philippines

At the June 17 meeting of the Nelson Merry-makers 4-H club, Mrs. Gladys Bollman, leader, announced that the club had received a letter of thanks from Jose Bakula, of Sinaloa, Laguna, Philippines, for seeds sent by the club this spring. The seeds had been sent via the "Seeds for Democracy" program. The letter stated that only 50 per cent of seeds bought in the Philippine stores will grow, whereas 85 per cent of American seeds will produce crops. The seeds are distributed to the Philippine people by various clubs in the Philippines such as 4-H, Rotary, Kiwanis, YWCA and the YMCA.

The group met at the home of Edna Rhodenbaugh with nine members and two guests present. Phyllis Angler gave a talk on "Health." Edna Rhodenbaugh gave two demonstrations, the first on "How to Put in a Sleeve," followed by "The Correct Way to Cook an Egg."

"Pie Crust" was the topic of a demonstration by Anne Bollman. The meeting closed with the 4-H pledge. Refreshments were then served by the hostess.

The next meeting will be July 1 at the home of Carol Buckaloo.

LILA-LO CLUB

The annual club picnic will be Sunday at 6:30 p.m. in Lowell park. Members who are unable to attend or want further information regarding the event, should call Mrs. Lyle Wiedman or Mrs. Lloyd Shiplett.

When a recipe calls for a cup of eggs you'll usually need five medium-sized eggs.

Share-the-Fun Talent Contest For 4-H Clubs

The Lee County Share-the-Fun contest was held Friday night, June 18, at the Loveland Community House in Dixon. A crowd of about 300 watched as the 4-H club members of Lee County presented their acts.

The seventeen clubs which participated in the contest were the Marion Busy Bees, Compton-Brooklyn Beavers, Nachusa Ever-Readies, Gold Star, Kunjoynus, Sublet Indians, East Grove Cubs, Palmyra Sewing Mads, Nelson Knockouts, Nelson Merry-makers, Viola 4-H South Dixon Willing Workers, Lucky Seamers, Grove Girls, Hoppy Homemakers, Eldena Wonder Workers, and the Dixie Girls.

From this group were chosen five acts which will represent Lee County at the District Festival to be held July 7 at the Loveland Community House. The county winners are the Viola 4-H Kitchen Band; an accordion solo by Vernon Rasmussen of the Nelson Knockouts; a vocal solo by Myrna Dennis of Gold Star; a tap dance by Karen Wells, Wilma Hall, Carol Voss and Karla Kersten of Gold Star's club; and a square dance by the Kunjoynus and Sublet Indians clubs, members taking part were Peggy Rapp, Janet Prendergast, Annette Rae Dewey, Rose Marie Mink, Ronnie Dinges, Richard Roemmich, Eddie Theiss, Duane Rapp and Kenneth as caller; Margaret Laird of the Dixie Girls 4-H club will represent Lee County as mistress of ceremonies for the District Festival.

The Share-the-Fun Festival is an amateur talent contest for 4-H members made possible by the United States Rubber Company whose local representatives are Brechon Tire Sales and Zephyr Service, both of Dixon. Winners of the coming district festival will participate in the State Festival at the State Fair August 14. From this contest will be chosen those who will attend the National Festival at 4-H Club Congress.

Counselors for the Lee County 4-H Day Camp to be held June 29 in the Amboy Park met last Tuesday evening at a leader training school at Amboy Park. Their duties and the day's activities were outlined. Following a demonstration and discussion of how to build an Indian tepee campfire the group cooked aluminum foil-wrapped hamburgers. Both of these are activities in which 4-H boys and girls will be participating in at Day Camp.

World War II

Veteran Slain

BLUFFS, Ill. (U.S.)—Eddie Van
Hynning, 35, a World War II veter-
an, was shot and killed Wednesday
night in what Sheriff George
Leipze said was the climax of an
all-day drinking party.

Leipze said Hynning was shot in
the head with a shotgun in the
yard of Wes Walker, 65, an odd
jobs man. The sheriff said Walker
related he shot Hynning because
Hynning was "trying to run me
away from home." He did not elab-
orate.

Walker was being held in the
Scott county jail at Winchester.

Business Booms
For Lee County
Tax Collector

Lee county residents have paid
approximately \$2,000,000 of \$2,900,
000 owed the county in 1953 real
estate and personal property taxes,
according to an estimate made to-
day by County Treasurer Albert
Hillison.

Hillison reminded residents who
have not paid these taxes that two
per cent interest will be charged
if payment is not made before
July 1. An additional one per cent
interest is charged for each month
that tax payments are late, he
said. Deadline for 1953 real estate
and personal property tax pay-
ments was June 1.

Under a new state law, Hillison
reported, residents who have not
made payment of taxes by the last
week in August will have their
names published under the "delin-
quent tax listings."

Dixon Man
Arrested
After Crash

Dixon police have a warrant for
the arrest of Edward Stafford, 28,
of 1019 University st., who is pre-
sently confined to KSB hospital as
the result of an auto mishap.

Stafford's auto caromed off a fire
hydrant and struck a tree in the
500 block on East Boyd street early
today. Stafford was taken to KSB
hospital suffering from face and
knee cuts. His condition was re-
ported as "good" this morning.

Sergeant-in-Charge Earl Kelch-
ner stated that Stafford will be
arrested on charges of driving un-
der the influence of liquor as soon
as he is released from the hos-
pital.

Kelchner also said that Stafford's
driver's license stipulates that he
can drive only a certain make of
car, and that he was driving an-
other make at the time of the ac-
cident. The police officer said this
situation would demand further
investigation.

The direct talks between the two
warring elements were arranged
in Geneva by a third party, this
source said. He made the hopeful
estimate on the basis, also, of
Wednesday's parley between
French Premier Pierre Mendes-
France and Red China's Premier
Chou En-lai in Bern.

Chou took off this morning for
New Delhi and a meeting with
Indian Prime Minister Nehru. He
intimated he would return to Ge-
neva to complete the Indo-Chinese
peace talks.

President
Opposed to
Hiss PensionPress Secretary
Explains Ike's
Views to Newsmen

WASHINGTON (U.S.)—President
Eisenhower opposes paying any
government pension to Alger Hiss,
and the agencies in his adminis-
tration are mainly concerned that
any legislative ban is properly
drawn.

This was the apparent explana-
tion from various official quarters
today after James C. Hagerty,
White House press secretary, took
exception to a number of news
stories on the question.

Hiss, a former State Department
employee convicted of falsely stat-
ing he never passed secrets to a
Communist spy ring, would be eli-
gible under present law for a \$700-
a-year federal pension at age 62.

News accounts Tuesday reported
the Civil Service Commission and
the Budget Bureau felt the
government must go through with
retirement pay to federal employees
even when they are imprisoned
for criminal acts. Views of the two
agencies were communicated to
the House Civil Service Commis-
tee.

Congressmen "Shocked"
Two authors of bills to bar a
pension to Hiss—Reps. Clardy (R-
Mich.) and St. George (R-N.Y.)—
used such terms as "inconceiv-
able" and "leaves me aghast" to
describe their reactions to the
agency communications.

Wednesday Hagerty said he was
at a loss to understand how any
one could conclude that the admin-
istration is against legislation
which would deny Hiss a pension.

"When I brought these stories
to the attention of the President,"
Hagerty said, "he remarked that
the existing law seemed unbelieve-
able to one (Eisenhower) whose

Today Mars, Earth Only 40 Million Miles Apart

Look for Planet Burning Redly in Southern Skies

By CHARLES MERCER

NEW YORK (AP)—Someday, perhaps not in this century, man will explore space. Someday, when he cuts through the heavens like a celestial arrow, he will seek the red planet Mars.

No planet in the sky has excited the imagination as much as Mars because of one tantalizing question: Does it contain life?

Today Mars comes closer to earth than it has in 13 years. Today the two planets are only 40 million miles apart — a mere arm's length in the infinite distances of the universe. As Joseph M. Chamberlain, general manager and chief astronomer of the American Museum-Natural History Planetarium explains it: The earth, traveling in a smaller orbit than that of Mars, has caught up with the other planet in their race around the sun.

Seek Mysteries

Look, then, for Mars burning redly in the southern skies from early evening until sunrise. Observatories and back yard astronomers everywhere will train their telescopes on the red planet tonight and in the summer months immediately following, seeking answers to strange mysteries.

We definitely know several things about Mars. It's about half the size of earth, with an equatorial diameter of 4,200 miles. Its day lasts 24 hours and 37 minutes and its year 687 days with the seasons almost twice as long as ours. The surface gravity is only four tenths that of earth; thus a man who weighs 150 pounds here would weigh only 60 pounds out there. It's very cold on Mars with the average surface temperature about minus 70 degrees Fahrenheit.

Man's increasingly close scrutiny of Mars has come about, as Chamberlain says, because "of all our neighbor worlds, Mars most closely satisfies standards of climate and topography which might allow for a few familiar life forms."

Scientists will try with radio-meters to determine the amount of light and heat radiation from the planet. Spectrographs, which thus

U. S. Chess Champs Bow To Russians

Just A Rehearsal

Yet even this intensive study of the Martian world is but a preliminary rehearsal to September 1956, when Mars will be only about 35 million miles from earth. Then mankind may be nearer the answer to the mysterious questions: What lies under the surface of Mars? If there is not life as we now understand it, is it there in some earlier phase of evolution? Or is it possible that Mars contains the vestiges of a vanished civilization?

Hold Pair After Stud Poker Game

COUNCIL BLUFFS, Iowa (AP)—William M. Lacey, 65, of Springfield, Ill., and Otto H. Burns, 57, of Kansas City, were ordered held for the grand jury Wednesday on charges of attempting to swindle a retired farmer of \$18,000 in a phony stud poker game.

Municipal Judge A. J. Nielsen set bonds at \$1,000 each. The two were arrested June 11 while waiting for a Council Bluffs bank to open. With them was James Oamek, 79, of Council Bluffs. Oamek testified at a preliminary hearing that he was to draw \$18,000 from the bank to cover a hand of stud poker.

Oamek said he met Burns, Lacey and an unidentified third man at Excelsior Springs, Mo. On a trip to Lexington, Mo., Oamek said Lacey found a billfold containing \$40 and a deck of cards but no identification.

A poker game developed over the money and Oamek said he was dealt what he thought was a "clinch" hand. He said Burns and Lacey wanted to back the hand against a bet of \$76,000 made by the third man, supposedly a "wealthy oil man." Oamek said the \$18,000 was to have been his share of the bet.

Police found a thick roll of bogus money when Burns and Lacey were searched at the police station.

Dead Man's Hand

LONDON, Ky. (AP)—Three men were arrested for playing poker on cemetery hill and charged with gambling. Police Chief Joe Noe said the top of the hill was "a pleasant place, surrounded by big shade trees, and the slick ground gave evidence the site was a favorite for card playing."

Reds Reject Allied Atom Ban Proposal

LONDON (AP)—The Western powers announced today they have proposed an immediate ban on use of nuclear weapons, except in defense against aggression, and a freeze on military manpower and arms expenditures. The Russians turned it down.

The new Western plan for step-by-step disarmament was disclosed following the windup of 20 fruitless meetings here of the United Nations' subcommittee on disarmament. It called for gradual progress toward abolition of nuclear weapons with effective enforcement safeguards on both sides of the Iron Curtain.

The Western powers again rejected Russian disarmament proposals which, they said, allowed for no adequate means of enforcement behind the Iron Curtain.

Claim McCarthy Aide Not Cleared Surine Reported Assigned To Investigate the CIA

NEW YORK (AP)—Newspapers reported today that Sen. Joseph R. McCarthy (R-Wis.) has assigned Donald Surine to a preliminary investigation of the Central Intelligence Agency, and they said Surine does not have federal security clearance.

Surine told a reporter in Washington a week ago that he had security clearance.

Asked about the story that he had been assigned by McCarthy to investigate the CIA, Surine said in Washington: "I don't know anything about it." He declined to be drawn into a discussion.

Washington dispatches to the New York Times and New York Herald Tribune attributed the assignment and reported lack of security clearance of Surine to informed sources.

The Times, calling Surine "one of Sen. McCarthy's most controversial investigators," said he was

has not yet been forthcoming. McCarthy has charged Communist infiltration into the CIA, and has said it might well be the subject of a full-scale investigation by his subcommittee.

Allen W. Dulles, CIA director and brother of Secretary of State John Foster Dulles, has called the charge "false."

Foreign Aid Bill Faces Opposition

WASHINGTON (AP)—Some Republican congressmen today foresaw heavy sailing ahead for President Eisenhower's \$3½ billion dollar foreign aid program despite its approval virtually intact by the House Foreign Affairs Committee.

The committee scissored only seven million dollars from administration requests Wednesday in approving a \$3,470,608,000 ceiling for global assistance during the year beginning July 1.

Rep. Vorys (R-Ohio), a ranking member, termed the committee action a "vote of confidence in the President." The measure now goes to the House floor, probably Monday, and Vorys predicted that several members, including some committee members, would try to cut it. The Senate has not yet acted.

The President, in a special message to Congress Wednesday, called the program "essential" and said that, in the face of world tension, any cuts in it "would be unjustified and unsafe."

Woman Killed In Auto Crash

LINCOLN, Ill. (AP)—Mrs. Mary Josephine Anderson, 37, was killed Wednesday in an auto accident on U. S. 136 near Emden.

The car, driven by her husband, Emil Anderson, 44, collided with a Logan county highway department truck. Anderson was only slightly injured.

The Andersons' four daughters were injured: Nancy Lee, 14, and Sarah Jane, 4, seriously and Martha Lou, 12, and Virginia Marie, 7, slightly.

GOAL OF INVASION FORCES—Bombed and strafed at least three times, Guatemala City, the nation's capital, is the prize target of invading anti-Communist forces. Almost the entire city of some 225,000 people can be seen in this hilltop view.

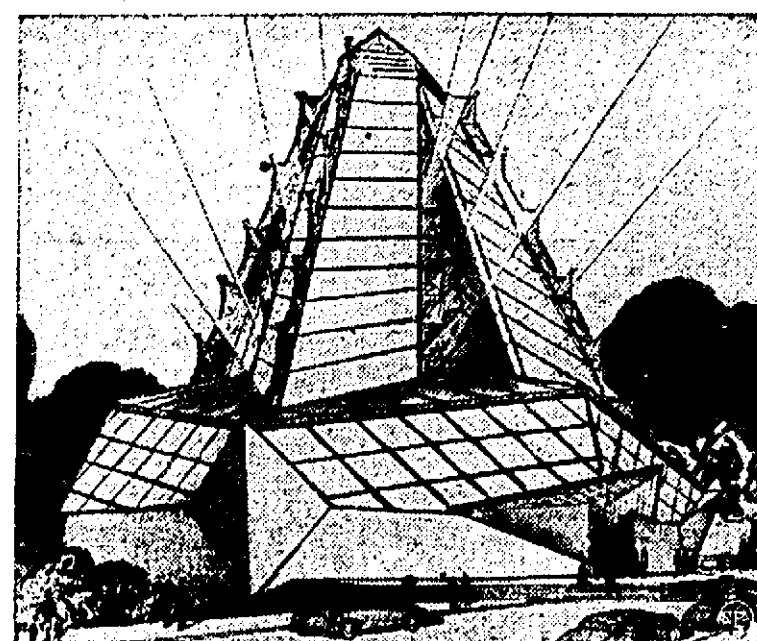

KEEP 'EM HIGH AND GET GOING—Anyone can play cowboy and Indians, but the Spain boys, of Elkhart, Ind., even have their own private jail where they can keep bad men. Paul, 5, is shown steering his brother, Tom, 3½, into the hoosegow in their back yard. Their dad built it, and it gives the boys a chance to act out their wild west dramas.

CUPID MELTS THE POUNDS OFF — Parking lot attendant, Marvin "Fats" Sample, 35, weighed 307 pounds, left, last July. His girl, Maxine Bailey, said she'd marry him if he reduced to 180 pounds. By December, Marvin was down to 207 pounds, short of the mark, but Maxine married him anyhow. Since the wedding he has taken off 37 pounds and is now down to a trim 170, right.

DRAW, PARTNER—Bill Millington was tired of the white garages surrounding his home in Dearborn, Mich., so he decorated his with a wild-west mural. He says mural takes a day to paint and when he tires of one he just paints another.

MODERN HOUSE OF WORSHIP—A hexagon surmounted by a triangle is the basic structural design for the new American Synagogue to be erected in Elkins Park, Pa. The building's main colors will be green and blue, and the projections along the ridges are lamps, replicas of the "Menorah," the candelabrum in the tabernacle. Dominating the exterior will be the giant ark of the covenant which holds the torahs.

FOLLOWING A STRAIGHT AND NARROW PATH—It's often said that the road to a successful marriage is a straight and narrow path. But few will be straighter or narrower than the one started by acrobats Roger Desugis and Berthe Omankowski in Toulouse, France. After exchanging vows in a church, Roger, 25, and Berthe, 21, waved to the crowd of over 20,000 at left. Then the couple walked out on a tightwire 60 feet above the street where Abbe Simon, perched on a fireman's ladder, right, gave them his blessing.

CAN'T KEEP A GOOD MAN DOWN—William Jewsbury, of Ft. Dodge, Kan., takes the wheel of the "Sutt-N-Jew," a vehicle he and his pal Ralph Sutterby created. Jewsbury's legs were amputated after an electrical accident. They collected parts from old cars and motorcycles and assembled the vehicle which travels about 18 miles per hour.

FAMILY MATTER—At first glance the theme of this sculpture might escape the observer, but its title, "Family Going for a Walk," makes it clear. Created by Armitage, the sculpture is on exhibit in London, England's, Holland Park.

RADIO ASTRONOMY PIONEERS—Edward Lilley, right, and David S. Heesch, stand next to the dish-shaped parabolic antenna which helped win them doctorates in astronomy from Harvard University, in Cambridge, Mass. The device is built of wire mesh, is 24 feet in diameter and cost \$100,000 to build. The young scientists use the radar-like equipment instead of the more conventional telescope to do their star gazing.

ACT OF GRATITUDE—Lorgi Mollo, an Italian emigrant, carves head of Simon Bolivar at his farm in Turin, Venezuela, in appreciation for opportunities in new land.

GO LIGHTLY—It pays to walk lightly in a mine field, so British Royal Engineers are experimenting with inflatable sneakers which they can wear while sweeping for land mines. Sgt. Ivan Liley, left, inflates one of the sneakers before trying them out, right. Behind him is Sgt. Liley with a personal detecting "device," a mine-finding dog named "Ike." Scene of the experimenting is Tidworth, England.

FIRST HONORS FOR "POSTHUMOUS AWARD" — This heart-tugging picture of a baby grasping his dead daddy's Congressional Medal of Honor has won United Press Staff Photographer Frank Cancellare, of Washington, D. C., top honors in the "Best News Feature Picture" division of the 1954 National Headliner Contest. It was taken in Washington, D. C., when three-month-old Francis Colton Hammond, Jr., of Alexandria, Va., received the nation's highest honor, awarded posthumously to his father, Navy Hospital Corpsman Francis Colton Hammond, killed in Korea.

THE YEARS HOP-ALONG—Seventeen years haven't changed the happy expressions of these two people. At left, William Boyd, better known as Hopalong Cassidy, embraces actress Grace Bradley after their wedding in June, 1937. At right, the couple, beaming brightly as ever, celebrate their 17th anniversary at a New York City club.

Has United States the Initiative in Cold War?

Nation Apparently Loser on Diplomatic, Military Fronts

By JAMES MARLOW

WASHINGTON (U)—President Eisenhower, in his State of the Union message last Jan. 7, proudly proclaimed this country had seized the initiative in the cold war with communism.

Whatever happened to that initiative?

Here, six months later, instead of having the Communists on the defensive, this country has been baffled on two fronts: Diplomatically, at the Geneva conference and militarily, in Indochina.

The Eisenhower administration had 16 months—between the time it took office in January, 1953, and last April when the Indochina War between the French and the Communist-led Vietminh reached a crisis—to work out a plan if crisis came.

In that time the President and members of his administration repeatedly had talked of the importance of keeping Indochina out of Communist hands, saying if it fell all Southeast Asia might go like so many dominoes.

No Plan
But when the showdown came—the crisis in Indochina began to develop just before the foreign ministers' conference opened in Geneva April 26—it turned out the administration had no plan at all.

Instead, it scurried around trying to find a way to save Indochina. It urged the French and British to join it in united action in Indochina. The British wouldn't buy.

The administration has never publicly stated what form this united action would take. It may not know. Eisenhower's advisers were divided on what kind of action—and whether any action—should be taken.

It was Secretary of State Dulles who was the big talker. He spoke ominously of the "massive retaliation" this country would invoke if the Chinese Communists invaded Indochina to help the Vietminh.

This startled America's European allies, who could envision themselves engulfed in an atomic war. But, instead of startling the Chinese, it may have amused them.

China Sent Supplies
They didn't have to send troops into Indochina to help the Vietminh. The Vietminh had manpower. What it needed was supplies, equipment and Chinese advisers and technicians. China sent them.

The net result: The Vietminh crushed the French at Dien Bien Phu and have been pushing them back since; rising Vietminh prestige probably won them new Indochinese recruits by the thousands; and the will of the French to win in Indochina was mauled.

Meanwhile, the administration set out to deal with the Communists diplomatically at Geneva where the foreign ministers of the United States (Dulles), Britain (Eden), France (Bidault), Russia (Molotov) and China (Chou En-lai), began their conference April 26.

Dulles opened with a disaster. This was his publicly known failure, on the very eve of the conference, to get the British and French to join in united action in Indochina.

Dulles Balked
The French, according to reports, sought American intervention but Dulles balked without British help. The British didn't want to get into a shooting war.

before they had a chance to see whether the Indochina problem could be settled at Geneva.

Thus the conference opened with a split between the United States and its allies. Dulles endured this setback just one week and came home. In his place he left Undersecretary Walter Bedell Smith. Smith came home this week in low spirits.

When the Vietminh crushed the French at Dien Bien Phu, the French threw out Premier Joseph Laniel and his cabinet, including Bidault. They picked as the new Premier Pierre Mendes-France.

He took office in the midst of a rising French demand for peace in Indochina. He promised to get it in 30 days or quit. He journeyed Wednesday to Bern to see Chou En-lai. Afterwards he said he

hoped for "happy progress." What this meant was not known.

It might mean an armistice giving the Vietminh most of Viet Nam, the biggest of Indochina's three states. That might soon lead to Communist absorption of all Viet Nam and the other two states.

UNCLE EF

Old Pharaoh Cheops was born 5000 years too soon. Instead of relying on a solar boat, such as they've found near his tomb in Egypt, the world has advanced so he could now take a shortcut to heaven on an A- or H-bomb cloud.

Herbert Hoover Will Speak in Chicago Tonight

CHICAGO (U)—Former President Herbert Hoover will be principal speaker tonight at the annual Merchandise Mart hall of fame dinner.

Before the dinner, Hoover will observe ceremonies in which four bronze busts will be unveiled in the Merchandise Mart Plaza overlooking the Chicago River.

The four busts represent the four merchants who were elected to the mart's hall of fame last year. They were Marshall Field I, founder of Marshall Field & Co., Chicago; F. W. Woolworth and John Wanamaker, New York merchants; and George H. Hartford, first president of the Great Atlantic & Pacific food stores.

Knitting Record

HANCOCK, N. H. (U)—After knitting and sending hundreds of sweaters to Great Britain in World War II, Mrs. Lilla Upton switched to shawl knitting in 1945.

Now 82, she estimates she has knitted and given away 275 shawls—mostly to neighbors—since that time.

Egbert, who subdued all other Saxon kings and established a general lordship over all the Britons, was first king of the English.

TARGET OF ANTI-REDS—This is the presidential palace, home of Guatemala's president, Jacobo Arbenz Guzman, and heart of the pro-Communist government. It was the first target of attack by planes manned by rebel anti-Red forces.

Economic Issue

SAN DIEGO (U)—The police blotter reported this repartee in a bar:

A husband slapped his wife. She punched him. Then husband raised a beer bottle over his wife's head.

She said, "You better not hurt me. Don't forget, I'm the one in the family that's working."

Gold Is Medicine

MINNEAPOLIS (U)—Radioactive gold was flown by airplane and helicopter from Oak Ridge, Tenn., to the University of Minnesota hospitals to aid in treatment of a cancer patient. The hurried trip was necessary because power of radioactive gold dissipates quickly.

Talk Burns Home
NOVATO, Calif. (U)—A woman found her party telephone line in use when she wanted to report a fire in her home. She pleaded with the unidentified talkers for "clear line." "Let it burn down," said a stubborn gossip. It did.

THE NEW
All-Nylon Tubeless
Firestone
"500"

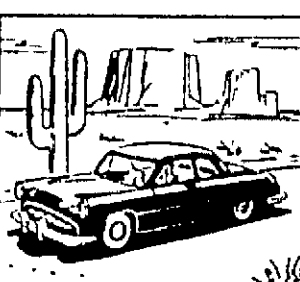

The SAFETY-TIRE developed at the Famed Indianapolis 500 Mile Race

91% STRONGER THAN ORDINARY TIRES

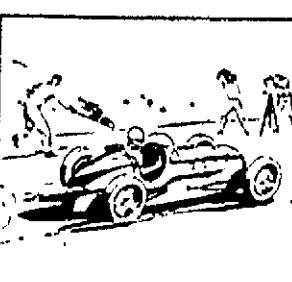

The Firestone "500" easily withstands the hazards of rocks, ruts, curbs and chuck holes. Where ordinary tires fail, the "500," with its strong gentle-flex nylon cords and its cushiony tubular construction, "rolls with the punch" . . . has plenty of "give" to resist even the most severe impact.

SAFE AT 40° HOTTER TEMPERATURE

Do you know that continuous hours of "heavy pedal" driving can make your tires too hot to touch? . . . That excessive heat causes blow-outs? With the Firestone "500" you can safely roll along all day on "lillet hot" pavement. You have a 40° safety margin over ordinary tires.

SAFE AT SPEEDS FASTER THAN YOU'LL EVER DRIVE

A combination of race fire engineering and Nylon construction make the Firestone "500" the safest high-speed tire ever developed. Hundreds of tests at the speedway prove this tire gives you a 15 M.P.H. Safety Margin over ordinary tires. It's the tire you need for modern driving on today's super highways!

Beef Ribs Listed As Weekend Buy

By The Associated Press
Prime ribs of beef and some cuts of pork will be among the better buys this weekend in the nation's food stores. You'll also find many vegetables at moderate prices.

Stores featuring prime ribs plan to cut prices as much as six to eight cents a pound. Other beef specials mentioned by a number of markets include sirloin and round steak, chuck roast, bone-

less chuck pot roast and ground beef.

Pork Down
Pork prices have come down a bit at wholesale lately, so you may find cheaper pork chops in your store. One chain reports that it will trim prices around four to eight cents a pound.

The word from the government is that supplies of pork in butcher shops next fall and winter will be about 13 per cent larger than a year earlier. And that will mean a reduction in prices.

Other weekend specials planned by a number of stores include veal shoulder roast, leg of lamb, fryers and stewing chickens.

There will be little change in butter prices from a week ago, but stores in many areas will raise egg prices by two to three cents a dozen.

Vegetable Bargains
Produce men say there are lots of vegetable bargains this week, with cabbage, lettuce, beets and greens at the top of the list.

Watermelons are plentiful, and reports from country shipping points say that large quantities are moving out for the Fourth of July weekend.

An increasing variety of fruits is becoming available, but items such as grapes, cherries, apricots, ectarines and figs are still rather high in price.

Congo Rain
LEOPOLDVILLE, Belgian Congo (AP)—Belgian Congo authorities are making new rain-making experiments. For some years the climate in the lower Congo has become drier. Cocoa and banana plantations no longer get the moisture needed for full development. A spell of drought brought near disaster. Experiments were started with a new method which dispenses with airplanes. Wood, soaked in silver iodide is burned; the smoke carrying the chemical into the air. The first results of this new method appear encouraging, officials say.

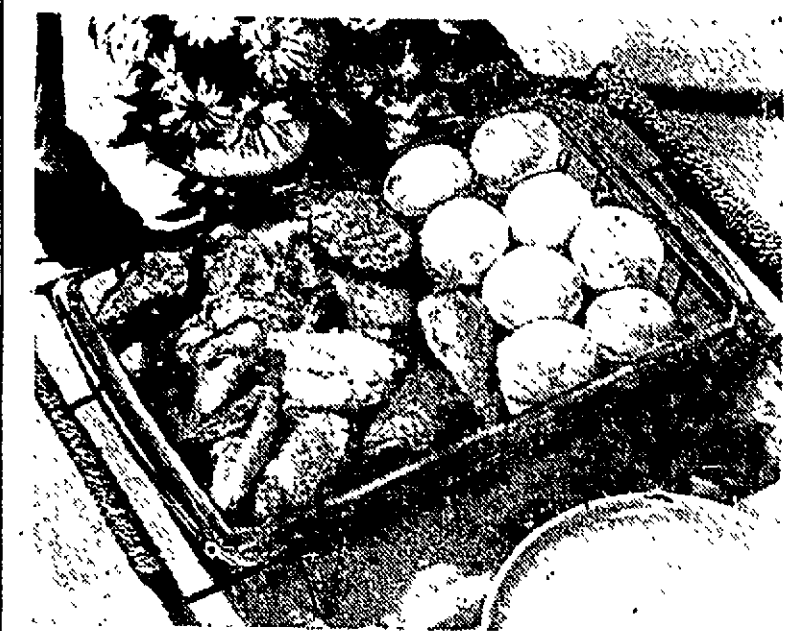

RED FOE—Rev. Don Marino Rossell y Arellano, 64, archbishop of Guatemala, is considered one of the leading anti-Communists within the Red-tinted Latin American nation. There's mounting speculation concerning his position as anti-Reds battle the government.

Regent Named

SEOUL (AP)—Mgr. Thomas Quinlan, a Columbian Fathers missionary who survived three years of Communist captivity, now holds the post of apostolic regent once occupied by Bishop Patrick J. Byrne who died a prisoner in North Korea after the death march of November, 1950. Mgr. Quinlan buried him.

Southern-Style Chicken Is Tasty Fourth of July Meal

OVEN-FRIED SOUTHERN CHICKEN with biscuits makes an ideal Fourth of July dinner.

By GAYNOR MADDON
One of our favorite Chicago hostesses, Marian Looft, has a deft touch with broiler-fryer chickens. Her short-cut way of preparing southern-fried chicken suggests a Fourth of July party and her Frenchified spring chicken saute inspires invitations to an unusually welcome summer night dinner.

Remove baking dish from oven and place chicken skin side down in a single layer. Bake in a hot oven (425 deg. F.) for 15 minutes. Turn chicken. Combine 2 cups biscuit mix and buttermilk. Roll dough 1/2-inch thick; cut biscuits; place on the bottom of the pan, being sure both chicken and biscuits remain in a single layer. Bake another 15 minutes or until biscuits are lightly brown and chicken is tender.

Spring Chicken Saute Chasseurs
(Yield: 6 servings)
Two to 2 1/2 pound frying chicken, cut in pieces, 3 tablespoons butter or margarine, 1/4 cup flour, 2 teaspoons salt, 1/4 teaspoon pepper, 1/4 teaspoon thyme, 4 green onions, chopped, 1/4 pound mushrooms, cut into quarters, 2 tablespoons lemon juice, 1 teaspoon sugar, 1 teaspoon salt, 1/4 cup apple juice, 2 medium tomatoes, diced (or 2 whole canned tomatoes, drained and diced), 2 tablespoons chopped parsley and chives.

Heat butter in heavy skillet. Mix flour, salt, pepper and thyme in a paper bag. Shake pieces of chicken in seasoned flour mixture and brown thoroughly in butter in skillet. Add onions and mushrooms.

Cover and simmer 3 minutes. Mix lemon juice, sugar, salt and apple juice and pour over chicken. Cover and simmer 5 minutes. Add tomatoes. Cook slowly over low heat about 1 hour or until chicken is fork tender. Sprinkle with parsley and chives. Serve hot.

Number of Unwed Mothers Increasing, Medics Told

By ALTON L. BLAKESLEE
AP Science Reporter
SAN FRANCISCO (AP)—The number of unwed mothers is increasing—especially among teen-agers or upper class girls—and a "sex hysteria" in American society is partly to blame, a physician said Wednesday.

Many influences are at work producing "an emotional shambles which fosters many of the deviations and denatured biological trends which are common among our young folks," Dr. Goodrich C. Schauffler of Portland, Ore., told the American Medical Assn.

Urges Help
He urged physicians to "go beyond the ordinary call" of duty to help these girls.

He said he had seen "too many impressively happy endings" to think these matters cannot be "decisively handled—many of them by the physician."

Having their babies may "turn out to be a maturing experience—often a distinct psychological advantage as compared to an abortion."

Dr. Schauffler said there were 88,000 illegitimate live births in 1938, and 142,000 in 1950. Nearly half these mothers in 1950 were under 20, and 32,000 were girls under 17.

Front Privileged Groups
"A much higher percentage of unmarried mothers nowadays comes from comparatively privileged groups—high school students, college students, young women with good jobs, as compared with the 'poor working girl' or 'penniless domestic' of the beginning of the century."

Modern customs which "precipitate precocious sex activity of young people" are one cause, Dr. Schauffler said.

Young people are more aware of sex, "stimulated and maintained by the sex hysteria which is a calculated instrument of modern journalism and so-called entertainment trends."

Cite Influences
"Beyond this, there are loose practices, bad examples and lack of supervision in parental and home influences; liquor, narcotics, automobiles, auto courts, and finally, gang influences which combine the above elements and tend in certain groups, almost to enforce premarital sex practices."

There is no such thing as a race of albinos.

Ogle Speaker Lists Ways To Increase Dairy Sales

OREGON—Consumers, producers and dairy industry groups working together can insure the success of the current campaign to increase the sale of dairy products.

That prediction was made Tuesday night by Grover Thomas, Mt. Morris, speaking for the Ogle County Farm Bureau Dairy Marketing subcommittee. Thomas spoke at a meeting of consumer, producer and dairy industry groups in the Farm Bureau auditorium, Oregon.

The meeting was called by the Ogle County Farm Bureau Marketing committee to launch the county activity of a statewide dairy sales promotion program. The campaign is sponsored by the IAA with the cooperation of many other statewide groups.

The sales campaign will be carried on as an activity of the County Farm Bureau Marketing committee. Some of the suggested activities for the county program were:

- Encourage restaurants, hotels, and other eating establishments to serve milk with meals at menu prices.
- Encourage increased sales promotion by retail milk route delivery men.
- Encourage increased use of milk dispensers in eating establishments and drug stores.
- Promote greater use of store taste-test demonstrations on dairy products.
- Encourage increased advertising of dairy products on radio and television and in local newspapers.
- Promote dairy displays (poster, products, etc.) and better merchandising of dairy products in retail groceries.

Sign Two Teachers In Oregon

OREGON—Alan Rumley, Princeton, has signed a contract to teach seventh grade in Oregon elementary school this fall, G. M. Chestnut, principal, has announced.

Rumley, who is a graduate of Northern Illinois State Teachers college, is working on his master's degree there this summer. He has served in the armed forces.

Mrs. Florence Dentler, Oregon, who has taught in the school system here before but the past few years has been a substitute, has signed a contract to teach fifth grade.

There is only one vacancy now to be filled—that of a fifth grade teacher.

Rev. Becker Reviews His Book Telling the History of Amboy

By MRS. WILLIAM KNUTH
Amboy Correspondent

AMBOY — The Rev. Anthony Becker presented an interesting and educational talk Tuesday evening, when he gave a review of his newly published book, "Biography of a Country Town, U. S. A."

At a public meeting held in the Farm Bureau auditorium, under the auspices of the Amboy Women's Evening club. He vividly traced in his talk (with the aid of blackboard drawings) the history of our area, the time of the Indians, Illinois becoming a state, the time prior to Lee becoming a county, the settlement of the Rock river area and the parental towns of Shelby and Binghampton, and the coming of the Illinois Central railroad and the settling of Amboy as a town in 1854. He then took us through the century, by recalling the early settlers, the early business houses, the early newspapers, the organizations which became active as the years went by and up to the present time.

The Rev. Becker was introduced by Mrs. Charles Welty, chairman of the committee responsible for the occasion. She was assisted by Mrs. John Eltholt, Rose Murtaugh, Marie Ross, Mrs. David Shapiro and Mrs. B. F. Hinrichs. Ushers were Miss Murtaugh, Miss Ross and Mrs. Eltholt.

The Women's Evening Club Chorus opened the program by singing two numbers, "Old Fashioned Garden" and "Tea for Two." The stage was set with antique furniture, including a spinning wheel. Members of the chorus and ushers were dressed in Gay Nineties costumes, adding to the centennial theme, which was carried out throughout the evening.

Members of the chorus were: Sopranos—Mrs. Roy Vivian, Mrs. George Montavon, Mrs. William Knuth, Marie Faivre and Mary O'Rourke.

Second sopranos—Mrs. David Shapiro, Mrs. Charles Elliott, Mrs. Robert Koehler, Mrs. O. P. Dickinson and Mrs. B. F. Hinrichs.

Altos—Mrs. Charles Welty, Mrs. L. S. Hill, Mrs. Bruce Klausen and Mrs. Cecil Natress.

Director was Mrs. Russell Fate and accompanist, Mrs. J. A. Liggett.

Refreshments were served following the program with Mrs. B. F. Hinrichs, president of the Evening Women's club, presiding at the serving table.

Teacher Marries

OHIO—Word has been received here of the marriage of Miss DeJores White, English instructor in Ohio High School in 1952-53, and Robert Sanders on June 5 in Cincinnati.

MT. MORRIS — The schedule of events for the July 3, 4 and 5 Mt. Morris Family Festival has been completed. Among the features will be midway rides, races and ball games, a square dance, a religious program, a parade, an address by Rep. Leo E. Allen, entertainment by local and professional talent, and a fireworks display.

The Saturday schedule includes rides and concessions which open at 2 p.m., a band concert at 8:30 p.m. during which the festival queen will be crowned and a square dance at 9:30 p.m. on Wesley Avenue in front of the band shell with Roy Westbrook as caller.

Sunday the rides and concessions open at 1 p.m. An auto economy run is set for 2 p.m. State Champion Leaf River American Legion drill team will give a demonstration at 3 p.m. on Wesley Avenue. A religious, patriotic program conducted by Mt. Morris Council of Churches will be held from 7:30 to 8:30 p.m. Rides and concessions will close during this hour.

Monday the playground championship ball games gets underway on the grade school field at 9:30 a.m. Rides and concessions open at 10 a.m. Pre-school and grade school children will take part in races at Kable Square at 10:30 with ribbons and prizes for the winners.

The parade is scheduled at 1 p.m., and bicycle races will be held at 1:30 p.m. A home talent show will be held at the band shell at 2:30 p.m.

A patriotic address, "America's Greatness," by Rep. Leo E. Allen, is scheduled at 3 p.m., and a professional talent show at 3:30 p.m.

A home and professional talent program will be held at the band shell at 7 p.m., and Mt. Morris VFW Clown Band will give a concert at the high school athletic field at 9:15 p.m.

The climax, a fireworks display will be held at the high school athletic field at 9:40 p.m.

University Seeks Info On Meteor

(NOTE: The State University of Iowa astronomy department is seeking information concerning a meteor which perhaps fell in the Dubuque area on June 17. The following article describes it.)

On the evening of Thursday, June 17, at 9:05 p.m. (CST) or 10:05 p.m. (CDT) the brightest meteor reported to us this year fell. The color was generally reported as greenish, or greenish-blue. People in Iowa City reported that it lighted the sky noticeably, and in other cities the light was compared to that of lightning. In the country, outside of Iowa City, it was reported as lighting the landscape. A group watching an outdoor movie in Davenport, thought it was as bright as the moon, and several young people screamed when the meteor fell. At Galena, Illinois, the attention of an observer was attracted by his yard lighting up, and seeing the shadows of trees moving rapidly. An explosion like thunder followed the appearance of the meteor at Galena.

We have more than thirty reports on the meteor from the Iowa City area, at least an equal number from the Cedar Rapids area, and reports from some thirty other points. These indicate that the meteor came from the southeast and fell somewhere in the Dubuque area. However, we have no reports at all from Dubuque, and few from the communities near Dubuque. We would like to hear from any who saw this meteor, or who know of other persons seeing it in the parts of Iowa, Illinois, and Wisconsin reasonably close to Dubuque, or in other words reasonably close to the real path of the meteor. We have started field work on this meteor, taking measures, at interviews with observers, which give us data for computing the path through the atmosphere and the orbit in which the meteor was traveling before it fell into the Earth's atmosphere. We need no more reports from the Iowa City and Cedar Rapids areas, but for a good orbit we should have the names of many more observers close to the real path.

This meteor was bright enough and came low enough that there is a good chance meteorites were dropped. Farmers and hunters should be on the lookout for such in the area where the meteor ended.

Letters reporting observations of the meteor should be addressed to the Department of Astronomy, State University of Iowa, Iowa City, Iowa.

Stars-and-Stripes Pie Is Treat for Holiday Guests

THE STARS AND STRIPES glorify this Fourth of July apple pie, which will bring skyrockets of praise from all.

By GAYNOR MADDON
What's more American than apple pie? Especially with the flag on top made of green and red maraschino cherries. Mrs. James Shinn Maier of Villa Nova, Pa., gave us the idea and her recipe to help us celebrate the Fourth of July.

One recipe plain pastry, 7 med-

ium-sized tart apples, peeled, cored and sliced, 1/2 cup chopped maraschino cherries, drained (about 20 cherries), 1/2 cup sugar, 1/4 teaspoon cinnamon, dash nutmeg, 1 tablespoon butter or margarine, green maraschino cherries halved, red maraschino cherries,

quartered, Swiss cheese strips.

Divide dough in half. Roll half of dough out on lightly floured board to 1/4-inch thickness. Line a 9-inch pie plate with pastry; trim off excess pastry. Combine sliced apples and 1/2 cup chopped cherries; mix lightly.

Combine sugar, cinnamon and nutmeg; mix well. Add to apple-cherry mixture and toss lightly but thoroughly. Turn into pastry-lined pie plate. Roll out remaining half of pie dough to 1/4-inch thickness and cover filling. Trim edge, seal and flute as desired.

Cut a few slits in top crust to allow escape of steam. Bake in moderately hot oven (400 deg. F.) 50 to 60 minutes, or until apples are tender. Arrange cherries and cheese strips on top of cooled pie to resemble an American flag.

Use green cherries as background for the stars, red cherries for the red stripes and cheese strips for the white stripes. Swiss cheese may be grated over green cherries for stars, if desired.

Red Tape Is White Use Cultivated Blueberries To Make Holiday

By GAYNOR MADDON
Blueberries are as American as the flag. It was the Indians who first taught us to enjoy them. And modern agriculturalists have developed the berry to its present cultivated state of largeness, juiciness and sweetness. Elizabeth White of Whitesboro, N. J., has been one of the leaders in pioneer commercial plantings of the modern blueberry.

Coffee prices these last few months aren't the fault of your grocer! He's been keeping retail prices as low as possible, just as we have been trying to "hold the line" against the higher prices we have had to pay for the choice green coffees required to maintain the traditional uniformity and high quality of Hills Bros. Coffee.

Sooner or later, the price of coffee is bound to come down. In the meantime, considering the price you have to pay for any kind of coffee today, what you get for your money is really something to think about!

No matter what happens to coffee prices, our company will never lower the quality standards of our product. We have said this before... and we say it again!

If you haven't tried Hills Bros. Coffee, we don't want you just to take our word for it! We want you to prove it for yourself. We are so confident of the coffee enjoyment and complete satisfaction you will find in Hills Bros. Coffee that we offer the coupon below to prospective new customers, as well as to the millions of people who are already steady users and know what we are talking about. Take this coupon to your grocery store and save 10¢ on a can of Hills Bros. Coffee!

This coupon is our invitation to prove for yourself that Hills Bros always gives you the best there is in coffee. Take it to your grocer today and save 10¢.

For Your Holiday Supper Try This Pineapple Duck

By GAYNOR MADDOX

Duck is plentiful now and a good budget item. So let's visit Mabel Stegner of New York, "the Einstein of duck cookery," and get her down-to-earth advice.

How to Prepare Duck for Cooking

Remove and wash giblets from duckling. Push back skin around neck of duck and cut off neck. Cut off wing tips and remove pin feathers with tweezers. Wash duck thoroughly, inside and out, with cold water. Dry carefully.

To Roast: Fill with favorite stuffing or roast unstuffed.

To Braise: Cut in quarters or smaller servings. If desired, remove skin from duck before cutting it in pieces.

To Steam, Boil or Pressure Cook: Cut duck in quarters or smaller servings. Have meat dealer do this if you prefer.

Duck roasted at 325 deg. F. for 1½ to 2 hours, or until a meat thermometer inserted in the stuffing records an interior temperature of 165 deg. F. will be moderately well done but juicy and delicious.

For a very well done duck the interior temperature should read about 185 deg. F. For a crispier brown skin place the duck under the broiler a few minutes before serving, or brush the duck at the end of 1 hour of roasting with 2 tablespoons of honey and 1 teaspoon soy sauce.

Pineapple Duck

(Yield: 4 servings)
Five to 6-pound Long Island duckling, 4 cups water, 2 teaspoons salt, 3 tablespoons duck fat, ½ clove garlic, 1 cup duck broth, 1 cup drained, diced canned pineapple, 1 medium-sized green pepper, 2 tablespoons cornstarch, ¼ cup water, 1 teaspoon salt, 1 tablespoon lemon juice or vinegar, 1 teaspoon soy sauce.

Have meat dealer cut duck in quarters. Place duck in 6-quart saucepan or Dutch oven with neck, giblets, water and salt. Cook, covered, over moderate heat until tender, about 45 minutes to 1 hour.

Or cook in pressure saucepan according to directions. Remove duck. Drain off liquid. Allow fat to rise to the top, then pour it off. Removing skin, cut duck meat in pieces about 2 inches long, ½ inch square. Place 3 tablespoons duck fat in large frying pan or Dutch oven. Add garlic.

Cook over low heat 2 minutes, then remove garlic. Add duck meat and cook over moderate heat 5 minutes, tossing lightly.

Add broth, pineapple, green pepper cut in 1-inch squares. Blend together and stir in cornstarch.

Gypsy Clan Keeps Vigil At Hospital

DALLAS (H)—A gypsy matriarch lay in the hospital, and out on the lawn her dark-skinned tribe camped, waiting and praying. Sometimes the clansmen laughed aloud as their children darted squealing among the trees. Mostly they talked softly, in small clusters, and changed from English to a rapid flow of Gypsy dialect when a stranger came near.

Hurt In Wreck
They kept watch over Mrs. Rosie Evans, 75, of Fort Worth, injured in a car wreck.

"She is our elder, the leader of our tribe," said Joe Evans, a Fort Worth coppersmith. "That is why we wait."

Evans, a slim, middle-aged man whose brown mustache almost matches his skin, is the oldest of the gypsy leader's seven sons. If she should die he would become the tribal head.

"No, of course I won't be the 'King of the Gypsies,'" he said. "That's foolishness. There are many gypsy tribes, and there is no 'King' or 'Queen.' That's just something people like to say about gypsies. 'But she is our mother—and she is a Queen to us.'"

Mrs. Evans suffered from shock, a broken ankle and foot, an injured hip and deep cuts across one knee and her forehead. She was hurt in a wreck, near here Sunday night.

30 Keep Watch
There were about 30 gypsies keeping watch at Methodist Hospital—only part of Mrs. Evans' tribe. Besides the seven sons, she has four daughters, 30 grandchildren and 10 great grandchildren, plus nieces and nephews.

"Sure, we're gypsies," Evans said. "My mother is a Cherokee Indian and my father was a Serbian, born in Chicago. My great grandfather came from the old country."

"But we've put a stop to that 'roaming gypsies' stuff. We have good homes and regular jobs. We live like anybody else."

Radio Classes

ANN ARBOR, Mich. (H)—Song festivals in 13 communities are final examinations for an estimated 15,000 school children who take part in a twice-weekly radio singing class. Mrs. Janice Cobb conducts the class broadcast by 22 Michigan radio stations.

Mrs. Cobb not only checks to see that the children are wearing their coats or jackets, but also that they are wearing their life preservers. When the river is frozen, they mount the boat on runners and their father or brother pushes it across.

Delaware Woman Chicken Queen

GEORGETOWN, Del. (H)—A 43-year-old housewife and mother of three today wore the crown of National Chicken Cooking Queen.

Mrs. Steven J. Barczewski, who lives on a 240-acre farm near Newark, Del., won the title, \$500 and other prizes Wednesday at the 7th annual Delmarva Chicken Festival.

Her recipe: Broiled chicken basted with white wine and crab apple jelly and served with tea biscuits. It won over 89 other entries.

Boat Is School Bus

CLINTON, Iowa (H)—A rowboat is a school bus for the six school age children of the Peter Edfors family. They live on Beaver Island in the Mississippi river. Each morning they are ferried across about 200 yards of the river.

Mrs. Edfors not only checks to see that the children are wearing their coats or jackets, but also that they are wearing their life preservers. When the river is frozen, they mount the boat on runners and their father or brother pushes it across.

Arlington Park To Open Today

CHICAGO (AP)—Colorful Arlington Park opened one of the richest meetings in the history of thoroughbred racing today, a star-studded program offering \$1,950,000 in stakes and overnight purses.

The 28-year-old park recently was given a \$2,300,000 face-lifting and overhauling including installation of 16 escalators and expanded seating facilities.

Nearly all the top horses in training will see some action during the 35-day meet. Saturday's Warren Wright Memorial has attracted Hasty House Farm's Preakness winner, Hasty Road, and his stablemate Sea O Erin.

Walmac Farm's Hasseyampa, who ran third in both the Kentucky Derby and the Preakness, is expected for the July 17 \$155,000 Arlington Classic. Determine, the Kentucky Derby winner, also has been named along with High Gun, winner of the Belmont Stakes.

Georgia Fish Fry Is Sure To Be Fourth of July Treat

By GAYNOR MADDOX

South of the Mason-Dixon line, a good old-fashioned "fish fry" is a favorite 4th of July sport. Mrs. B. H. Bush of Decatur, Ga., tells us how to swing a fry for a crowd so that everyone has a wonderful time. A native Georgian herself, Mrs. Bush says a proper fish fry menu includes deep fried hush puppies, black-eyed peas and crisp cole slaw. She stresses the hush puppies.

In the early days of the south, according to her, the Negroes would gather around an open fire after dark and fry fish and corn pone in an open pot.

On the outer fringe of the circle sat their hound dogs. If the talk of hunger for a moment, the low whine of hunger from the dogs would attract attention. Then some-

one would reach over, break off a piece of a pone that was cooling and toss it to the hungry dogs, murmuring, "Hush puppy." Soon the phrase caught on and corn meal pones fried in deep hot fat became known as hush puppies.

French Fried Fish Fillets
Batter: One cup pancake mix, 1/4 teaspoon salt, 1/2 cup water.
Fish Fillets: Combine pancake mix, salt and water. Beat with rotary beater or electric mixer about 2 minutes. Cut fillets about serving size portions. Dip in batter; drain and fry in hot deep fat (375 deg. F.) 2 to 3 minutes.

Hush Puppies
(Makes 2 dozen)
One and one half cups enriched corn meal, 2 teaspoons baking powder, 1/2 teaspoon salt, 1 small on-

cup milk, 1/4 cup water.
Sift together dry ingredients. Add onion. Combine milk and water and add to dry ingredients, stirring lightly. Let stand about 5 minutes before frying. Drop a teaspoon of batter for each hush puppy into hot deep fat (360 deg. F.), frying only a few at a time. Fry until golden brown. Drain on absorbent paper.

Yugoslav Drought

BELGRADE (AP) — A fall drought and a late summer threaten to cut Yugoslavia's wheat crop this year close to the 1952 level that brought near starvation to the country. A bumper wheat crop last year, plus heavy imports both last year and this, are expected to fill the gap. But the country will have to keep importing, thereby consuming foreign exchange desperately needed for industrial goods.

The situation is a tough blow to Yugoslavia's communist government which has been trying desperately to increase agricultural production — even to the extent of freeing peasants from many onerous government controls and pressures. The United States may be called on to help out as it did with large free wheat shipments after the 1952 drought and again this year.
